I. Introduction

A. RISK FACTORS

Standard Risk Factors:

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the scheme invests fluctuate, the value of your investment in the scheme may go up or down.
- Past performance of the Sponsor, Mutual Fund, AMC or any associates of the Sponsor / AMC does not indicate the future performance of the Scheme of the Mutual Fund.
- Morgan Stanley Active Bond Fund is only the name of the Scheme and does not in any manner indicate either the quality of the Scheme or its future prospects and returns.
- The Sponsor is not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of an amount of Rs 5,00,000 (Rupees Five lacs only) towards setting up the Fund.
- The present scheme is not a guaranteed or assured return scheme.
- Dividend payments will be dependent on the returns achieved by the AMC through active management of the portfolio. The dividend distributions may, therefore, vary from day to day, week to week and month to month, based on investment results of the portfolio. Further, it should be noted that the actual distribution of dividends and frequency thereof are indicative and will depend, inter-alia, on availability of distributable surplus. Dividend payouts will be entirely at the discretion of Trustees.

Scheme Specific Risk Factors

- In addition to the factors that affect the values of securities, the NAV of Units of the Scheme will fluctuate with the movement in the broader fixed income, money market and derivatives market and may be influenced by factors influencing such markets in general including but not limited to economic conditions, changes in interest rates, price and volume volatility in the bond and stock markets, changes in taxation, currency exchange rates, foreign investments, political, economic or other developments and closure of the stock exchanges.
- Investments in different types of securities are subject to different levels and kinds of risk. Accordingly, the Schemes' risk may increase or decrease depending upon its investment pattern. E.g. investments in corporate bonds carry a higher level of risk than investments in Government securities. Further, even amongst corporate bonds, bonds which have a higher rating are comparatively less risky than bonds which have a lower rating.

Risk Factors Associated with Fixed Income and Money Market Instruments

- The performance of the Scheme may be affected by changes in Government policies, general levels of interest rates and risks associated with trading volumes, liquidity and settlement systems.
- **Interest rate risk:** As with all debt securities, changes in interest rates may affect the NAV of the Scheme since the price of a fixed income instrument falls when the interest rates move up and vice versa. The effect is more prominent when the duration of the instrument is higher. Hence the NAV movement of the Scheme consisting of predominantly fixed income securities is likely to have inverse correlation with the movement in interest rates. In case of a floating rate instrument, this risk is lower as a result of periodic reset of the coupon.
- **Spread risk:** Though the sovereign yield curve might remain constant, investments in corporate bonds are exposed to the risk of spread widening between corporate bonds and gilts. Typically, if this spread widens, the prices of the corporate bonds tend to fall and so could the NAV of the Scheme. Similar risk prevails for the investments in the floating rate bonds, where the benchmark might remain unchanged, but the spread over the benchmark might vary. In such an event, if the spread widens, the price and the NAV could fall.
- **Credit risk or default risk:** This refers to inability of the issuer of the debt security to make timely payments of principal and / or interest due. It is reflected in the credit rating of the issuer. Hence if the credit rating of

the issuer is downgraded, the price of the security will suffer a loss and the NAV will fall. Credit risk factors pertaining to lower rated securities also apply to lower rated zero coupon and deferred interest kind bonds. Lower rated zero coupon and deferred interest kind bonds carry an additional risk, unlike bonds that pay interest through the period of maturity, the Scheme by investing in these bonds will realize no cash till the cash payment date and if the issuer defaults, the Scheme may obtain no return on its investment.

- **Liquidity risk:** This represents the possibility that the realised price from selling the security might be lesser than the valuation price as a result of illiquid market. If a large outflow from the Scheme is funded by selling some of the illiquid securities, the NAV could fall even if there is no change in interest rates. Illiquid securities are typically quoted at a higher yield than the liquid securities and have higher bid offer spreads. Investment in illiquid securities results in higher current yield for the portfolio. Liquidity risk is a characteristic of the Indian fixed income market today. In addition, money market securities, while fairly liquid, lack a well-developed secondary market, which may restrict the selling ability of the Scheme and may lead to the Scheme incurring losses till the security is finally sold.
- **Reinvestment risk:** This is associated with the fact that the intermediate cash flows (coupons, prepayment of principal in case of securitised transactions or principal payment in case a security gets called or repurchased) may not be reinvested at the same yield as assumed in the original calculations.
- **Settlement risk:** Different segments of Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. Delays or other problems in settlement of transactions could result in temporary periods when the assets of the Scheme are uninvested and no return is earned thereon. The inability of the Scheme to make intended securities purchases, due to settlement problems, could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme's portfolio, due to the absence of a well developed and liquid secondary market for debt securities, may result at times in potential losses to the Scheme in the event of a subsequent decline in the value of securities held in the Scheme's portfolio.
- **Market risk:** Lower rated or unrated securities are more likely to react to developments affecting the market and the credit risk than the highly rated securities which react primarily to movements in the general level of interest rates. Lower rated or unrated securities also tend to be more sensitive to economic conditions than higher rated securities.

Risk Factors Associated with Derivatives

- The Scheme may invest in derivative products in accordance with and to the extent permitted under the Regulations and by RBI. Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Trading in derivatives carries a high degree of risk although they are traded at a relatively small amount of margin which provides the possibility of great profit or loss in comparison with the principal investment amount. Thus, derivatives are highly leveraged instruments. Even a small price movement in the underlying security could have an impact on their value and consequently, on the NAV of the Units of the Scheme.
- The derivatives market in India is nascent and does not have the volumes that may be seen in other developed markets, which may result in volatility to the values.
- There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the “counter party”) to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- The Scheme bears a risk that it may not be able to correctly forecast future market trends or the value of assets, indices or other financial or economic factors in establishing derivative positions for the Scheme.
- **Interest Rate Swaps (IRS)** are highly specialized instruments that require investment technique and risk analysis different from those associated with equity shares and other traditional securities. The use of a IRS requires not only an understanding of the referenced asset, reference rate, or index but also of the swap itself, without the benefit of observing the performance of the swap under all possible market conditions. Swap agreements are also subject to liquidity risk, which exists when a particular swap is difficult to purchase or sell. Swap agreements may be subject to pricing risk, which exists when a particular swap becomes extraordinarily expensive (or cheap) relative to historical prices or the prices of corresponding cash market instruments. IRS agreements are also subject to counterparty risk on account of insolvency or bankruptcy or failure of the counterparty to make required payments or otherwise comply with the terms of the agreement.

Risk Factors Associated with Overseas Investments

- Within the investment objectives of the Scheme, the Scheme may invest in overseas markets which carry risks related to fluctuations in the foreign exchange rates, the nature of the securities market of the country, repatriation of capital due to exchange controls and political circumstances.
- It is the AMC’s belief that investment in foreign securities offers new investment and portfolio diversification opportunities into multi-market and multi-currency products. However, such investments also entail additional risks. Such investment opportunities may be pursued by the AMC provided they are considered appropriate in terms of the overall investment objectives of the Scheme. Since the Scheme would invest only partially in foreign securities, there may not be readily available and widely accepted benchmarks to measure performance of the Scheme. To manage risks associated with foreign currency and interest rate exposure, the Fund may use derivatives for efficient portfolio management including hedging and in accordance with conditions as may be stipulated under the Regulations or by RBI from time to time.
- Overseas investments will be made subject to any/all approvals, conditions thereof as may be stipulated under the Regulations or by RBI and provided such investments do not result in expenses to the Fund in excess of the ceiling on expenses prescribed by the Regulations and consistent with costs and expenses attendant to international investing.
- To the extent that the assets of the Scheme will be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by changes in the value of certain foreign currencies relative to the Indian Rupee. The repatriation of capital to India may also be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it of other restrictions on investment.

Risk Factors Associated with Securitised Debt

Generally available asset classes for securitisation in India are :

- Commercial Vehicles
- Auto and Two wheeler pools
- Mortgage pools (residential housing loans)
- Personal Loan, credit card and other retail loans
- Corporate loans / receivables

In terms of specific risks attached to securitisation, each asset class would have different underlying risks. Some

of the asset classes such as personal loans, credit card receivables etc., being unsecured credits in nature, may witness higher default rates. As regards corporate loans/receivables, depending upon the nature of the underlying security for the loan or the nature of the receivable the risks would correspondingly fluctuate. However, the credit enhancement stipulated by rating agencies for such asset class pools is typically much higher and hence their overall risks are comparable to other AAA rated asset classes.

The rating agencies have an elaborate system of stipulating margins, over collateralisation and guarantee to bring risk limits in line with the other AAA rated securities. It is relevant to note here that predominantly the scheme intends to invest in only AAA rated securitised debt. This compares favourably with a portfolio, which is constructed on the basis of AA rated securitised debt.

Some of the factors, which are typically analyzed for any pool, are as follows:

- **Size of the loan:** This generally indicates the kind of assets financed with loans. Also indicates whether there is excessive reliance on very small ticket size, which may result in difficult and costly recoveries. To illustrate, the ticket size of housing loans is generally higher than that of personal loans. Hence in the construction of a housing loan asset pool for say Rs.1 crore it may be easier to construct a pool with just 10 housing loans of Rs.10 lacs each rather than to construct a pool of personal loans as the ticket size of personal loans may rarely exceed Rs.5 lacs per individual. Also to amplify this illustration further, if one were to construct a pool of Rs.1 crore consisting of personal loans of Rs.1 lac each, the larger number of contracts (100 as against one of 10 housing loans of Rs.10 lacs each) automatically diversifies the risk profile of the pool as compared to a housing loan based asset pool.
- **Average original maturity of the pool:** This indicates the original repayment period and whether the loan tenors are in line with industry averages and borrower's repayment capacity. To illustrate, in a car pool consisting of 60 month contracts, the original maturity and the residual maturity of the pool viz. number of remaining instalments to be paid gives a better idea of the risk of default of the pool itself. If in a pool of 100 car loans having original maturity of 60 months, if more than 70% of the contracts have paid more than 50% of the instalments and if no default has been observed in such contracts, this is a far superior portfolio than a similar car loan pool where 80% of the contracts have not even crossed 5 instalments.
- **Loan to Value Ratio:** This indicates how much % value of the asset is financed by borrower's own equity. The lower the LTV, the better it is. This Ratio stems

from the principle that where the borrowers own contribution of the asset cost is high; the chances of default are lower. To illustrate for a Truck costing Rs. 20 lacs, if the borrower has himself contributed Rs. 10 lacs and has taken only Rs. 10 lacs as a loan, he is going to have lesser propensity to default as he would lose an asset worth Rs. 20 lacs if he defaults in repaying an installment. This is as against a borrower who may meet only Rs. 2 lacs out of his own equity for a truck costing Rs. 20 lacs. Between the two scenarios given above, the latter would have higher risk of default than the former.

- **Average seasoning of the pool:** This indicates whether borrowers have already displayed repayment discipline. To illustrate, in the case of a personal loan, if a pool of assets consist of those who have already repaid 80% of the installments without default, this certainly is a superior asset pool than one where only 10% of installments have been paid. In the former case, the portfolio has already demonstrated that the repayment discipline is far higher.
- **Default rate distribution:** This indicates how much % of the pool and overall portfolio of the originator is current, how much is in 0-30 DPD (days past due), 30-60 DPD, 60-90 DPD and so on. The rationale here is very obvious, as against 0-30 DPD, the 60-90 DPD is certainly a higher risk category.

Unlike in plain vanilla instruments, in securitization transactions it is possible to work towards a target credit rating, which could be much higher than the originator's own credit rating. This is possible through a mechanism called 'Credit enhancement'. The purpose of credit enhancement is to ensure timely payment to the investors, if the actual collection from the pool of receivables for a given period is short of the contractual payouts on securitisation. Securitisations are normally non-recourse instruments and therefore, the repayment on securitisation would have to come from the underlying assets and the credit enhancement. Therefore, the rating criteria centrally focus on the quality of the underlying assets.

World over, the quality of credit ratings is measured by default rates and stability. An analysis of rating transition and default rates, witnessed in both international and domestic arena, clearly reveals that structured finance ratings have been characterized by far lower default and transition rates than that of plain vanilla debt ratings. Further, internationally, in case of structured finance ratings, not only are the default rates low but post default recovery is also high.

In the Indian scenario also, more than 95% of issuances have been AAA rated issuances indicating the strength

of the underlying assets as well as adequacy of credit enhancement.

- **Limited Liquidity & Price Risk:** Presently, secondary market for securitised papers is not very liquid. There is no assurance that a deep secondary market will develop for such securities. This could limit the ability of the investor to resell them. Even if a secondary market develops and sales were to take place, these secondary transactions may be at a discount to the initial issue price due to changes in the interest rate structure.
- **Limited Recourse, Delinquency and Credit Risk:** Securitised transactions are normally backed by pool of receivables and credit enhancement as stipulated by the rating agency, which differ from issue to issue. The Credit Enhancement stipulated represents a limited loss cover to the Investors. These Certificates represent an undivided beneficial interest in the underlying receivables and there is no obligation of either the Issuer or the Seller or the originator, or the parent or any affiliate of the Seller, Issuer and Originator. No financial recourse is available to the Certificate Holders against the Investors' Representative. Delinquencies and credit losses may cause depletion of the amount available under the Credit Enhancement and thereby the Investor Payouts may get affected if the amount available in the Credit Enhancement facility is not enough to cover the shortfall. On persistent default of an Obligor to repay his obligation, the Servicer may repossess and sell the underlying Asset. However many factors may affect, delay or prevent the repossession of such Asset or the length of time required to realize the sale proceeds on such sales. In addition, the price at which such Asset may be sold may be lower than the amount due from that Obligor.
- **Risks due to possible prepayments-Weighted Tenor / Yield :** Asset securitisation is a process whereby commercial or consumer credits are packaged and sold in the form of financial instruments. Full prepayment of underlying loan contract may arise under any of the following circumstances :
 - Obligor pays the Receivable due from him at any time prior to the scheduled maturity date of that Receivable; or;
 - Receivable is required to be repurchased by the Seller consequent to its inability to rectify a material misrepresentation with respect to that Receivable; or
 - The Servicer recognizing a contract as a defaulted contract and hence repossessing the underlying Asset and selling the same.

In the event of prepayments, investors may be exposed to changes in tenor and yield.

- **Bankruptcy of the Originator or Seller :** If originator becomes subject to bankruptcy proceedings and the court in the bankruptcy proceedings concludes that the sale from originator to Trust was not a sale then an Investor could experience losses or delays in the payments due. All possible care is generally taken in structuring the transaction so as to minimize the risk of the sale to Trust not being construed as a "True Sale".

Legal opinion is normally obtained to the effect that the assignment of Receivables to Trust in trust and for the benefit of the Investors, as envisaged herein, would constitute a true sale.

- **Bankruptcy of the Investor's Agent :** If Investor's agent becomes subject to bankruptcy proceedings and the court in the bankruptcy proceedings concludes that the recourse of Investor's Agent to the assets / receivables is not in its capacity as agent / Trustee but in its personal capacity, then an Investor could experience losses or delays in the payments due under the swap agreement. All possible care is normally taken in structuring the transaction and drafting the underlying documents so as to provide that the assets / receivables if and when held by Investor's Agent is held as agent and in Trust for the Investors and shall not form part of the personal assets of Investor's Agent. Legal opinion is normally obtained to the effect that the Investors Agent's recourse to assets / receivables is restricted in its capacity as agent and trustee and not in its personal capacity.
- **Credit Rating of the Transaction / Certificate :** The credit rating is not a recommendation to purchase, hold or sell the Certificate in as much as the ratings do not comment on the market price of the Certificate or its suitability to a particular investor. There is no assurance by the rating agency either that the rating will remain at the same level for any given period of time or that the rating will not be lowered or withdrawn entirely by the rating agency.
- **Risk of Co-mingling :** The Servicers normally deposit all payments received from the Obligors into the Collection Account. However, there could be a time gap between collection by a Servicer and depositing the same into the Collection account especially considering that some of the collections may be in the form of cash. In this interim period, collections from the Loan Agreements may not be segregated from other funds of the Servicer. If the Servicer fails to remit such funds due to Investors, the Investors may be exposed to a potential loss. Due care is normally taken to ensure that the Servicer enjoys highest credit rating on stand alone basis to minimize Co-mingling risk.

Risk Factors Associated with Securities Lending

The risks in lending portfolio securities, as with other extensions of credit, consist of the failure of another party, in this case the approved intermediary, to comply with the terms of agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure to comply with can result in the possible loss of rights in the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The Mutual Fund may not be able to sell such lent securities and this can lead to temporary illiquidity.

B. REQUIREMENT OF MINIMUM NUMBER OF INVESTORS IN THE SCHEME

The Scheme/Plan shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme/Plan(s). However, if such limit is breached during the NFO of the Scheme, the Fund will endeavour to ensure that within a period of three months or the end of the succeeding calendar quarter from the close of the NFO of the Scheme, whichever is earlier, the Scheme complies with these two conditions. In case the Scheme / Plan(s) does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2) (c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme / Plan(s) shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days notice to redeem his exposure over the 25% limit. Failure on the part of the said investor to redeem his exposure over the 25% limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

C. SPECIAL CONSIDERATIONS, IF ANY

- Neither this Scheme Information Document nor the Units have been registered in any other jurisdiction. The distribution of this Scheme Information Document in certain jurisdictions may be restricted or totally prohibited and accordingly, persons who come into possession of this Scheme Information Document are required to inform themselves about, and to observe, any such restrictions.
- Prospective investors should review / study this Scheme Information Document carefully and in its entirety and shall not construe the contents hereof or regard the summaries contained herein as advice relating to legal, taxation, or financial / investment matters and are advised to consult their own professional advisor(s) as to the legal, tax, financial or any other requirements or restrictions relating to the subscription, gifting, acquisition, holding, disposal (by way of sale, switch or Redemption or conversion into money) of Units and to the treatment of income (if any), capitalisation, capital gains, any distribution, and other tax consequences relevant to their subscription, acquisition, holding, capitalisation, disposal (by way of sale, transfer, switch or conversion into money) of Units within their jurisdiction of nationality, residence, incorporation, domicile etc. or under the laws of any jurisdiction to which they or any managed funds to be used to Purchase / gift Units are subject, and also to determine possible legal, tax, financial or other consequences of subscribing / gifting, purchasing or holding Units before making an application for Units.
- Morgan Stanley Mutual Fund / the AMC have not authorised any person to give any information or make any representations, either oral or written, not stated in this Scheme Information Document in connection with issue of Units under the Scheme. Prospective investors are advised not to rely upon any information or representations not incorporated in this Scheme Information Document as the same have not been authorised by the Fund or the AMC. Any subscription, Purchase or sale made by any person on the basis of statements or representations which are not contained in this Scheme Information Document or which are inconsistent with the information contained herein shall be solely at the risk of the investor.
- Subject to the Regulations from time to time, funds managed by the affiliates /associates of the Sponsor may invest either directly or indirectly in the Scheme. The funds managed by these affiliates/associates may acquire a substantial portion of the Scheme's Units and collectively constitute a major investment in the Scheme. Accordingly, Redemption of Units held by such funds may have an adverse impact on the value of the Units of the Scheme because of the timing of any such Redemption and may affect the ability of other Unit Holders to redeem their respective Units.
- As the liquidity of the Scheme's investments may sometimes be restricted by trading volumes, settlement periods and transfer procedures, the time taken by the Fund for Redemption of Units may be significant in the event of an inordinately large number of Redemption requests or of a restructuring of the Scheme's portfolio. In view of this, the Trustee has the

right, in its sole discretion, to limit redemptions under certain circumstances - please refer paragraph "Right to Limit Redemptions" in section III A under Units and Offer.

- The AMC, under powers delegated by the Trustee, shall have absolute discretion to reject any application, prevent further transactions by a Unit Holder, if after due diligence, the investor / Unit Holder / a person making the payment on behalf of the investor does not fulfill the requirements of the "Know Your Customer" or the AMC believes that the transaction is suspicious in nature as regards money laundering. In this behalf the AMC reserves the right to reject any application and effect a mandatory Redemption of Units allotted at any time prior to the expiry of 30 Business Days from the date of the application. If the payment for Purchase of Units are made by a third party (e.g. a Power of Attorney Holder, a Financing agency, a relative, etc.), the Unit Holder may be required to give such details of such transaction so as to satisfy the AMC of the source and / or consideration underlying the transaction.

Investors are urged to study the terms of the Statement of Additional Information and Scheme Information Document before investing in the Scheme and to retain this Scheme Information Document for future reference.

D. DEFINITIONS

In this Scheme Information Document, the following terms shall have the meanings mentioned against the respective term unless the context suggest otherwise:

AMFI - Association of Mutual Funds in India

Asset Management Company, AMC or Investment Manager - Morgan Stanley Investment Management Private Limited incorporated under the provisions of the Companies Act, 1956, and approved by SEBI to act as Investment Manager for the Schemes of Morgan Stanley Mutual Fund.

Applicable NAV - The Net Asset Value applicable for Redemptions / Repurchase / switches etc., based on the Business Day and relevant cut-off times on which the application is accepted at the official points of acceptance.

Application Form/Key Information Memorandum - A form meant to be used by an investor to open a Folio and purchase Units in the Scheme. Any modifications to the application form will be made by way of an addendum. On the issue of such addendum, the application form will be deemed to be updated by the addendum.

Business Day - A day not being:

1. A Saturday or Sunday; or
2. A day on which Banks in Mumbai and /or the Reserve Bank of India are closed for business or clearing, or

3. A day on which there is no RBI clearing / settlement of securities; or
4. A day on which the money markets are closed or otherwise not accessible; or
5. A day on which both The Bombay Stock Exchange Limited and The National Stock Exchange of India Limited are closed, whether or not the banks in Mumbai are open; or
6. A day on which Purchase and Redemption of Units is suspended or a book closure period is announced by the Trustee / AMC; or
7. A day on which normal business cannot be transacted due to storms, floods, bandhs, strikes or such other events as the AMC may specify from time to time.

Provided that the days when the banks in any location where the AMC's Investor Service Centres / Collection Centres are located, are closed due to a local holiday, such days will be treated as non Business Days at such centres for the purposes of accepting fresh subscriptions. However, if the Investor Service Centre in such locations is open on such local holidays, then redemption and switch requests will be accepted at those centres, provided it is a Business Day for the Scheme on an overall basis.

Notwithstanding the above, the AMC reserves the right to change the definition of Business Day and to declare any day as a Business Day or otherwise at any or all ISCs.

CBLO - Collateralised Borrowing and Lending Obligation.

II. Information About The Scheme

A. TYPE OF THE SCHEME

An Open ended Debt Scheme

B. WHAT IS THE INVESTMENT OBJECTIVE OF THE SCHEME?

The investment objective is to generate optimal returns through active management of the portfolio consisting of debt and money market securities.

However, there is no assurance that the objective of the Scheme will be realised. The Scheme does not assure or guarantee any returns.

C. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

Under normal circumstances, the asset allocation would be as follows:

Instruments	Indicative allocations (% of total assets)		Risk Profile
	Maximum	Minimum	High/Medium/Low
Debt* and Money market instruments	100	0	Low to Medium

* including securitized debt up to 100% of the net assets. No investment shall be made in foreign securitized debt.

The Scheme may also take fixed income derivatives position up to 50% of the net assets of the Scheme based on the opportunities available subject to guidelines issued by SEBI from time to time. These positions may be taken to hedge the portfolio, rebalance the same or to undertake any other strategy as permitted under SEBI Regulations from time to time.

The Scheme may also invest in foreign debt instruments up to 30% of the net assets of the Scheme in accordance with guidelines prescribed by SEBI and RBI from time to time. The scheme shall not make investments in Foreign Securitised debt.

If permitted by SEBI under Regulations / guidelines, the Scheme may also engage in securities lending. The AMC shall comply with all reporting requirements and the Trustee shall carry out periodic review as required by SEBI guidelines. Securities lending means the lending of stock to another person or entity for a fixed period of time, at a negotiated compensation. The securities lent will be returned by the Borrower on expiry of the stipulated period.

The Investment Manager will apply the following limits, should it desire to engage in Securities lending:

- Not more than 20% of the net assets of the Scheme can generally be deployed in securities lending; and
- Not more than 5% of the net assets of the Scheme can generally be deployed in securities lending to any single counter party.

Various risk associated with securities lending are described under risk factors of this document.

Change in Investment Pattern:

Subject to the SEBI Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. It must be clearly understood that the percentages stated above are only indicative and not absolute. These proportions can vary substantially depending upon the perception of the Investment Manager; the intention being at all times to seek to protect the interests of the Unitholders. Such changes in the investment pattern will be for short term period and for defensive considerations only.

D. WHERE WILL THE SCHEME INVEST?

The corpus of the Scheme will be invested in debt and money market instruments. Subject to the Regulations, the corpus of the Scheme can be invested in any (but not exclusively) of the following securities / instruments:

- Securities created and issued by the Central and State Governments and/or repos/reverse repos in such Government Securities as may be permitted by RBI (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills).
- Securities guaranteed by the Central and State Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills).
- Debt instruments issued by domestic Government agencies and statutory bodies, which may or may not carry a Central/State Government guarantee.
- Corporate debt and securities (of both public and private sector undertakings) including Bonds, Debentures, Notes, Strips, etc.
- Debt instruments (both public and private sector) issued by banks / development financial institutions.
- Money market instruments permitted by SEBI including alternative investments for the call money market as may be provided by RBI to meet the liquidity requirements.
- Certificate of Deposits (CDs).
- Commercial Paper (CPs).
- Securitised Debt instruments.
- The non-convertible part of convertible securities.
- Any other domestic fixed income securities and money market securities.
- Any overseas debt instrument, as permitted by extant regulations.
- Pass through, Pay through or other Participation

Certificates representing interest in a pool of assets including receivables.

- Foreign debt instruments.
- Derivative instruments.
- Debt or money market Mutual Fund schemes.
- Any other securities / instruments as may be permitted by SEBI from time to time.

In addition to the instruments mentioned above, the Scheme may enter into repurchase and reverse repurchase obligations as may be permitted by RBI. A part of the net assets may also be invested in Collateralized Borrowing & Lending Obligations [CBLO] or in alternative investment avenue as may be provided by RBI to meet liquidity requirements.

Investment in Foreign Securities:

Investment in overseas securities shall be made in accordance with the requirements stipulated by SEBI and RBI from time to time. If the Scheme decides to invest in foreign securities, it is the intention of the Investment Manager that such investments will not, normally exceed 30% of the assets of the Scheme. However, the AMC with a view to protecting the interests of the investors, may increase exposure in foreign securities as deemed fit from time to time. Foreign securities would include overseas mutual fund units, including money market and debt instruments, which are permissible under the Regulations or by any other regulatory body. Further, the AMC shall ensure due compliance with SEBI circular dated September 26, 2007 as amended from time to time, pertaining to investment in foreign securities before undertaking any such investment.

As per SEBI circular SEBI/IMD/CIR No. 7/104753/07 dated September 26, 2007, a mutual fund can make overseas investments up to USD 300 million, or such other limit as may be specified by SEBI from time to time.

Investment in short-term deposits of scheduled commercial banks:

Pending deployment of funds of the Scheme in securities in terms of investment objectives of the Scheme, the Scheme may invest the funds of the Scheme in short term deposits of scheduled commercial banks provided:

- a) Total investment of the scheme in Short term deposit(s) of all the Scheduled Commercial Banks put together shall not exceed 15% of the net assets. However, this limit can be raised up to 20% of the net assets with prior approval of the trustees. Further, investments in Short Term Deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the mutual fund in short term deposits.

- b) Scheme shall not invest more than 10% of the net assets in short term deposit(s), of any one scheduled commercial bank including its subsidiaries.
- c) Scheme shall not invest in short-term deposit of a bank, which has invested in that scheme.
- d) AMC shall not charge investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks in case of liquid and debt oriented schemes.
- e) "Short Term" for such parking of funds by Mutual funds shall be treated as a period not exceeding 91 days. However, in case of the term deposits placed as margin money for trading in derivatives, such limit of 91 days shall not be applicable.
- f) Such short-term deposits shall be held in the name of the concerned scheme.

Investment in other scheme/s of the Mutual Fund:

For the purpose of further diversification and liquidity, the Scheme may invest in another scheme managed by the same AMC or by the AMC of any other Mutual Fund without charging any fees on such investments, provided that aggregate inter-scheme investment made by all schemes managed by the same AMC or by the AMC of any other Mutual Fund shall not exceed 5% of the net asset value of the Fund.

The securities mentioned above could be listed, unlisted, privately placed, secured, unsecured, rated or unrated and of any maturity. The securities may be acquired through Initial Public Offerings (IPOs), secondary market operations, private placement, rights offers or negotiated deals. The scheme may invest the funds of the scheme in short term deposits of scheduled commercial banks as permitted under extant regulations.

Investment in associate/group companies of the Sponsor:

As per SEBI Regulations, the Scheme shall not make any investments in any un-listed securities of associate / group companies of the Sponsors. The Fund will also not make investment in privately placed securities issued by associate / group companies of the Sponsor. The Scheme may invest not more than 25% of the net assets in listed securities of group companies of the Sponsor/Asset Management Company/Mutual Fund.

Investment by AMC, Sponsor or their affiliates in the Scheme:

Subject to the Regulations, the AMC, the Sponsor, the Trustee and their associates or affiliates, may invest either directly or indirectly in the Scheme. However, AMC shall not charge any investment management and advisory services fee on its own investment in the Scheme.

Procedure and Recording of Investment Decisions

The Investment Manager will carry out the daily investment activities within the framework of SEBI guidelines in accordance with the investment objective of the scheme.

All investment decisions will be recorded in writing. The Fund Manager will continuously monitor all investment decisions and their impact on the performance of the Scheme and carry out suitable adjustment at periodic intervals. Adherence to overall risk parameters will also be monitored on a regular basis. The Board of AMC and Trustees will review the performance of the Scheme in relation to the benchmark, and other appropriate peer groups, based on performance data available.

The AMC has appointed an Investment Committee comprising of the Chief Executive Officer, the members from Investment Team and Executive Director/s of the AMC. The Committee's role is laid down by the Board of Directors of the AMC and Board of Trustees wherein the Committee will review the investment policy, portfolio and performance of the Scheme periodically. However, the day-to-day investment management decisions will solely be of the Portfolio Manager of the Scheme.

As per SEBI Regulations, the Scheme shall not make any investments in any un-listed securities of associate / group companies of the Sponsors. The Fund will also not make investment in privately placed securities issued by associate / group companies of the Sponsor. The Scheme may invest not more than 25% of the net assets in listed securities of Group companies.

E. WHAT ARE THE INVESTMENT STRATEGIES?

The portfolio will be actively managed to generate returns, commensurate with the prevailing view on interest rates and markets. The process of allocation to various securities would involve forming a view on interest rates and yield curve based on an analysis of macro economy, monetary policy, public finance and other variables affecting interest rates. Portfolio duration and asset allocation will reflect current views on interest rate cycle, yield curve and valuation of different sectors of the bond market. The endeavor is to maximize returns through active churning of the portfolio and capture positive price movements while trying to minimize negative price movement as far as possible. Individual securities will be selected based on credit research and relative valuation. The fund may actively use derivatives for hedging, portfolio balancing and yield enhancement.

In order to achieve the investment objective of optimizing returns under different market conditions, at times it may assume relatively higher interest rate and liquidity risk than other fixed income funds like short term bond fund. The Fund manager would decide on the appropriate asset allocation for the scheme depending on market conditions.

In bullish conditions the exposure to debt instruments with longer maturity would be increased while in bearish conditions, the exposure to debt instruments with longer maturity would be reduced.

The fund will invest in various types of money market and debt securities as permitted by regulation. These securities could be fixed rate or floating rate, listed or unlisted, rated or unrated, privately placed or securitised debt securities, among others, transacted on an outright or repo / reverse repo basis, as permitted by regulation. The scheme may also invest in deposits of scheduled commercial banks as permitted under regulation.

Investments in debt instruments carry various risks such as interest rate risk, liquidity risk, credit risk, reinvestment risk etc. Whilst such risks cannot be completely eliminated, they may be minimized by diversification and effective use of hedging techniques.

The investment team will carry out in depth credit evaluation of the securities proposed to be invested in. The credit evaluation will include assessment of financial position, management quality, business and industry dynamics and overall operating environment of the company. The AMC will also be guided by the ratings given to individual issuer and instruments by rating agencies that are approved by the regulators.

Investment in Derivatives:

Derivatives products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

In terms of Circular No. MFD.BC.191/07.01.279/1999-2000 and MPD.BC.187/07.01.279/1999-2000 dated November 1, 1999 and July 7, 1999 respectively issued by Reserve Bank of India permitting participation by Mutual Funds in Interest Rate Swaps and Forward Rate Agreements, the fund will use derivative instruments for the purpose of hedging and portfolio balancing. Further, the guidelines issued by Reserve Bank of India from time to time for forward rate agreements and interest rate swaps and other derivative products would be adhered to by the mutual fund.

Interest Rate Swaps (IRS)

An IRS is an agreement between two parties to exchange stated interest obligations for an agreed period in respect of a notional principal amount. The most common form is a fixed to floating rate swap where one party receives a fixed (pre-determined) rate of interest while the other receives a floating (variable) rate of interest.

Forward Rate Agreement (FRA):

A FRA is basically a forward starting IRS. It is an agreement between two parties to pay or receive the difference between an agreed fixed rate (the FRA rate) and the interest rate (reference rate) prevailing on a stipulated future date, based on a notional principal amount for an agreed period. The only cash flow is the difference between the FRA rate and the reference rate. As is the case with IRS, the notional amounts are not exchanged in FRAs.

Illustration of a derivatives transaction

Basic Structure of a Swap

Bank A has a 6 month Rs. 10 crore liability, currently being deployed in call. Bank B has a Rs. 10 crore 6 month asset, being funded through call. Both banks are running an interest rate risk.

To hedge this interest rate risk, they can enter into a 6 month MIBOR (Mumbai Inter Bank Offered Rate) swap.

Through this swap, A will receive a fixed pre agreed rate (say 7%) and pay "call" on the NSE MIBOR ("the benchmark rate"). Bank A's paying at "call" on the benchmark rate will hedge the interest rate risk of lending in call. B will pay 7% and receive interest at the benchmark rate. Bank A's receiving of "call" on the benchmark rate will hedge his interest rate risk arising from his call borrowing.

The mechanism is as follows:

- Assume the swap is for Rs.10 crore March 1, 2008 to September 1, 2008. A is a fixed rate receiver at 7% and B is a floating rate receiver at the overnight compounded rate.
- On March 1, 2008, A and B will exchange only an agreement of having entered this swap. This documentation would be as per International Swaps and Derivatives Association (ISDA).
- On a daily basis, the benchmark rate fixed by NSE will be tracked by them. On September 1, 2008 they will calculate the following:
 - A is entitled to receive interest on Rs.10 crore at 7% for 184 days i.e. Rs. 35.28 lacs, (this amount is known at the time the swap was concluded) and will pay the compounded benchmark rate.
 - B is entitled to receive daily compounded call rate for 184 days & pay 7% fixed.
- On September 1, 2008, if the total interest on the daily overnight compounded benchmark rate is higher than Rs. 35.28 lacs, A will pay B the difference. If the daily compounded benchmark rate is lower, then B will pay A the difference.
- Effectively, Bank A earns interest at the rate of 7% p.a. for six months without lending money for 6 months fixed, while Bank B pays interest @ 7% p.a. for 6

months on Rs. 10 crore, without borrowing for 6 months fixed.

As per above said RBI circulars, mutual funds are permitted to do Interest Rate Swaps / Forward Rate Agreements, for hedging purposes only. Accordingly, the AMC would undertake the same for similar purposes only. IRS and FRAs do also have inherent credit and settlement risks. However, these risks are substantially reduced as they are limited to the interest streams and not the notional principal amounts.

Investments in derivatives will be in accordance with the extant SEBI regulations / guidelines. Presently, derivatives shall be used for hedging and / or portfolio balancing purposes, as permitted under the Regulations. The circumstances under which such transactions would be entered into would be when, using the IRS route it is possible to generate better returns / meet the objective of the scheme at a lower cost. For e.g. if buying a 2 Yr MIBOR based instrument and receiving the 2 Yr swap rate yields better return than the 2 Yr AAA corporate instrument, the scheme would endeavour to do that. Alternatively, the scheme would also look to hedge existing fixed rate positions if the view on interest rates is that it would likely rise in the future.

Overview of the Debt Market in India

The Indian fixed income market is increasingly becoming sophisticated with a wide variety of participants, instruments and is now getting integrated with the global financial markets. Increase in the limit of foreign institutional investors' investment in the domestic fixed income market will result in attracting global investors to the Indian Market. Screen based order matching system developed by the Reserve Bank of India (RBI) for trading in government securities, straight through settlement system for the same, settlements guaranteed by the Clearing Corporation of India and innovative instruments like CBLO have contributed in reducing the settlement risk and increasing the confidence level of the market participants. Screen based currency futures have recently been launched and there are plans to launch exchange traded interest rate futures. Availability of these hedging instruments will increase volumes in the cash market also.

The RBI reviews the monetary policy four times a year giving the guidance to the market on direction of interest rate movement, liquidity and credit expansion. The central bank has been operating as an independent authority, formulating the policies to maintain price stability and adequate liquidity. Bonds are traded in dematerialised form and institutional investors' preference for listed instruments has resulted in most of the bonds getting listed. This has improved the disclosure standards by the issuers. Credit rating agencies have been playing an important role in

the market and are an important source of information to manage the credit risk.

Government (Central and State) is the largest issuer of debt in the market. Public sector enterprises, quasi government bodies and private sector companies are other issuers. Insurance companies, provident funds, banks, mutual funds, financial institutions, corporates and FIIs are major investors in the market. Government loans are available up to 30 years maturity. Variety of instruments available for investments including plain vanilla bonds, floating rate bonds, money market instruments, structured obligations and interest rate derivatives, make it possible to manage the interest rate risk effectively. The securities available are listed or unlisted, secured or unsecured, public issue or private placements.

Indicative levels of the instruments currently trading are as follows:

Instrument	Maturity	Yield	Liquidity
CBLO/Repo	Short	2.75-3.5%	Very High
CP/CD/T Bills	Short	3.5-7.0%	Very High
Securitized Debt	Short / Medium	8.0-10.0%	Low
PSU Bonds / Corporate Bonds	Medium	7.0-8.5%	Medium
Central / State Government Securities	Low to High	5-7.5%	High

These are only indicative levels in April 2009 and may change depending upon the prevailing market conditions.

The Trustees / AMC may alter these above stated limitations from time to time, and also to the extent the Regulations change and as permitted by RBI, so as to permit the Scheme to make its investments in the full spectrum of permitted investments in order to achieve its investment objective.

J. HOW HAS THE SCHEME PERFORMED?

This scheme is a new scheme and does not have any performance track record.

III. Units And Offer

This section provides details you need to know for investing in the scheme.

A. NEW FUND OFFER (NFO) DETAILS

New Fund Offer Period

This is the period during which a new scheme sells its units to the investors.

NFO opens on: May 12, 2009

NFO closes on: May 25, 2009

The Board of Trustees reserves the right to extend the closing date, subject to the condition that the NFO shall not be kept open for more than 30 days.

New Fund Offer Price:

This is the price per unit that the investors have to pay to invest during the NFO.

Rs.10 per unit. Please note that that no entry and exit load shall be levied for application received during NFO.

Minimum Amount for Application in the NFO

Regular Plan- Rs. 5,000/- plus in multiples of Re. 1/-

Institutional Plus Plan: Rs. 50 lacs plus in multiples of Re. 1/-

Minimum Target amount

This is the minimum amount required to operate the scheme

and if this is not collected during the NFO period, then all the investors would be refunded the amount invested without any return. However, if AMC fails to refund the amount within 6 weeks, interest as specified by SEBI (currently 15% p.a.) will be paid to the investors from the expiry of six weeks from the date of closure of the subscription period.

The minimum target amount shall be Rs. 1 crore.

Maximum Amount to be raised (if any)

This is the maximum amount which can be collected during the NFO period, as decided by the AMC.

There is no upper limit for collection during the NFO period.

Plans / Options offered

Regular Plan and Institutional Plus Plan.

The following are the plans / options available under the Scheme:

Plan	Option	Sub-Options	Frequency
Regular	Dividend	Dividend Reinvestment and Pay out	Quarterly
Regular	Growth	–	–
Institutional Plus	Dividend	Dividend Reinvestment and Pay out	Quarterly
Institutional Plus	Growth	–	–

Growth option: Under this Option, income earned on the Scheme's corpus will remain invested in the Scheme and will be reflected in the Net Asset Value (NAV). Unitholders who opt for this Option will not receive any dividend in normal circumstances.

If the investor does not clearly specify the choice of Option/ Sub Option/Frequency at the time of investing, it will be treated as a Dividend /Reinvestment/ Quarterly as applicable for the Regular plan as well as for Institutional Plus plan. If the investor does not specify the plan, the plan allotted will be based on the minimum application amount criteria for each plan.

Dividend Policy

The Trustees may decide to distribute by way of dividend, the surplus by way of realised profit, dividends and interest, net of losses, expenses and taxes, if any, to Unit Holders in the dividend option of the Scheme if such surplus is available and adequate for distribution in the opinion of the Trustees. The Trustees decision with regard to availability and adequacy, rate, timing and frequency of distribution shall be final. The dividend will be due to only those Unit Holders whose names appear in the register of Unit Holders in the Dividend option of the Scheme on the record date. The Unit Holders have the option of receiving the dividend or reinvesting the same. Though, it is the intention of the

Mutual Fund to make regular dividend distribution, there is no assurance or guarantee that the dividends will be regularly paid.

The AMC shall dispatch to the Unit Holders, the dividend warrants within 30 days of the date of declaration of dividend.

Allotment:

Subject to the receipt of the specified minimum subscription amount to be received during NFO, full allotment of Units applied for will be made within 30 days from the date of closure of the NFO Period for all valid applications received during the NFO Period.

Account Statements:

An account statement will be sent by ordinary post / courier / electronic mail to each Unit Holder, stating the number of Units purchased, not later than 30 days from the close of the NFO Period.

In case the investor provides the e-mail address, the Fund will provide the Account Statement only through e-mail message. The Account Statements shall be non-transferable. When an investor has communicated his / her e-mail address, the Mutual Fund / Registrars, having sent the email to such registered address, are not responsible for e-mail not reaching the investor and for all consequences thereof. The Investor shall from time to time intimate the Mutual Fund / its transfer agents about any changes in the email address.

Refund

If application is rejected, full amount will be refunded within 6 weeks of closure of NFO. If refunded later than 6 weeks, interest @ 15% p.a. for delayed period will be paid and charged to the AMC.

Subject to the Regulations, any application for Units may be accepted or rejected in the sole and absolute discretion of the Trustee. For example, the Trustee may reject any

application for the Purchase of Units if the application is invalid or incomplete or if, in its opinion, increasing the size of any or all of the Scheme's Unit capital is not in the general interest of the Unit Holders, or if the Trustee for any other reason does not believe that it would be in the best interest of the Scheme or its Unit Holders to accept such an application.

The AMC / Trustee may need to obtain from the investor verification of identity or such other details relating to a subscription for Units as may be required under any applicable law, which may result in delay in processing the application.

Where can you submit the filled up applications?

During the NFO period, the applications duly filled up and signed by the applicants should be submitted at the ISCs and official points of acceptance whose name and addresses are mentioned at the end of this document including the back cover page.

How to Apply?

Please refer to the SAI and Application form for the instructions.

Listing

This being an open-ended scheme, it is not proposed to be listed on any stock exchange.

Special Products / facilities available during the NFO

Systematic Investment Plan, Systematic Transfer Plan, Systematic Withdrawal Plan would be available during the NFO as well as on an ongoing basis. For details, please refer section B titled "Ongoing offer details - Special Products available."

The policy regarding reissue of repurchased units, including the maximum extent, the manner of reissue, the entity (the scheme or the AMC) involved in the same.

The number of Units held by the Unit Holder in his folio will stand reduced by the number of Units redeemed. Units once redeemed will be extinguished and will not be reissued.

Restrictions, if any, on the right to freely retain or dispose of units being offered.

Pledge of units for loan

In conformity with the guidelines and notifications issued by SEBI / Government of India / any other regulatory body from time to time, Units under the Scheme may be offered as security by way of a lien / charge in favour of scheduled banks, financial institutions, non-banking finance companies (NBFCs), or any other body. The Registrar will note and record the lien against such Units. A standard form for this purpose is available on request with the Registrar.

The Unit Holder will not be able to redeem / switch Units under lien until the Lien Holder provides written authorisation to the Fund that the lien / charge may be vacated. As long as Units are under lien, the Lien Holder will have complete authority to exercise the lien, thereby redeeming such Units and receiving payment proceeds. In such instance, the Unit Holder will be informed by the Registrar through an account statement. All benefits accruing on the units under lien during the period of the lien in the form of bonus, dividend or otherwise shall be subject to lien.

Lien on Units

On an ongoing basis, when existing and new investors make subscriptions, a lien on units allotted will be created, and such units shall not be available for redemption until the payment proceeds are realised by the Fund. In case a Unit holder redeems units soon after making purchases, the redemption cheque will not be dispatched until sufficient time has elapsed to provide reasonable assurance that cheques or drafts for units purchased have been cleared.

In case the cheque / draft is dishonoured by the bank, the transaction shall be reversed and the units allotted earlier shall be cancelled, and a fresh Account Statement / Confirmation slip shall be dispatched to the Unit holder.

For NRIs, the Fund may mark a lien on units in case documents, which need to be submitted, are not given in addition to the application form and before the submission of the redemption request. However, MSIM reserves the right to change operational guidelines for lien on units from time to time.

Suspension of Purchase and Redemption of units

Subject to the approval of the Boards of the AMC and of the Trustees, and subject also to necessary communication of the same to SEBI, the determination of the NAV of the Units of the Scheme, and consequently of the Purchase, Redemption and switching of Units, may be temporarily suspended in any of the conditions described below:

- i. When one or more stock exchanges or markets which provide the basis of valuation for a substantial portion of the assets of the Scheme is closed otherwise than for ordinary holidays.
- ii. When, as a result of political, economic or monetary events or any other circumstances outside the control of the Trustee and the AMC, the disposal of the assets of the Scheme is not considered to be reasonably practicable or might otherwise be detrimental to the interests of the Unit Holders.
- iii. In the event of breakdown in the means of communication used for the valuation of investments

of the Scheme, so that the value of the securities of the Scheme cannot be accurately or reliably arrived at.

- iv. If, in the opinion of the AMC, extreme volatility of markets causes or might cause, prejudice to the interests of the Unit Holders of the Scheme.
- v. In case of natural calamities, war, strikes, riots, and bandhs.
- vi. In case of any other event of force majeure or disaster that in the opinion of the AMC affects the normal functioning of the AMC or the Registrar.
- vii. If so directed by SEBI.

In any of the above eventualities, the time limits for processing requests for subscription and Redemption of Units will not be applicable. All types of subscription and Redemption of Units will be processed on the basis of the immediately next Applicable NAV after the resumption of dealings in Units.

Right to limit redemptions

The Trustees may, in the general interest of the Unit Holders of the Scheme and when considered appropriate to do so based on unforeseen circumstances / unusual market conditions, limit the total number of Units which may be redeemed on any Business Day to 5% of the total number of Units then in issue, under the Scheme and option(s) thereof, or such other percentage as the Trustee may determine. Any Units which consequently are not redeemed on a particular Business Day will be carried forward for Redemption to the next Business Day, in the order of receipt. Redemptions so carried forward will be priced on the basis of the Applicable NAV (subject to the prevailing Load) of the Business Day on which Redemption is made. Under such circumstances, to the extent multiple Redemption requests are received at the same time on a single Business Day, redemptions will be made on a prorata basis, based on the size of each Redemption request, the balance amount being carried forward for Redemption to the next Business Day. In addition, the Trustees reserve the right, in its sole discretion, to limit redemptions with respect to any single account to an amount of Rs. 1 Lac in a single day.

B. ONGOING OFFER DETAILS

Ongoing Offer Period

This is the date from which the scheme will reopen for subscriptions/redemptions after the closure of the NFO period.

The Scheme will offer purchase/switch-in and redemption/switch-out on every business day on an ongoing basis commencing from not later than 30 days from the closure of the NFO.

Ongoing price for subscription (purchase)/switch-in (from other schemes/plans of the mutual fund) by investors.

This is the price you need to pay for purchase/switch-in.

Example: If the applicable NAV is Rs. 10, entry load is 2% then sales price will be:

$$\text{Rs. } 10 * (1 + 0.02) = \text{Rs. } 10.20$$

Subscriptions/Switch-ins on an ongoing basis shall be done at the applicable NAV.

Ongoing price for redemption (sale) / switch outs (to other schemes/plans of the Mutual Fund) by investors.

This is the price you will receive for redemptions/switch outs.

Example: If the applicable NAV is Rs. 10, exit load is 2% then redemption price will be:

$$\text{Rs. } 10 * (1 - 0.02) = \text{Rs. } 9.80$$

Redemptions/Switch-outs on an ongoing basis shall be done at the applicable NAV subject to prevailing exit load, if any

Regular Plan:

0.25% if redeemed within 3 months from the date of allotment.

No exit load shall be charged for investments under Institutional Plus Plan.

Cut-off timing for subscriptions/ redemptions/ switches

This is the time before which your application (complete in all respects) should reach the official points of acceptance.

The Cut-off time for the Scheme is 3.00 p.m. and the Applicable NAV will be as under:

Purchase/Switch-in:

- a) In respect of valid Purchase applications (alongwith necessary documents) accepted at an Official Point of acceptance alongwith a local cheque or demand draft payable at par at the place where it is received up to 3.00 p.m. on a Business Day, the closing NAV of the day of receipt of application will be applicable; and
- b) In respect of valid Purchase applications (alongwith necessary documents) accepted at an Official Point of Acceptance alongwith a local cheque or demand draft payable at par at the place where it is received after 3.00 p.m. on a Business Day, the closing NAV of the next Business Day will be applicable.

Please note that in respect of purchase of units with amount equal to or more than Rs. 1 crore, irrespective of the time of receipt of application, the closing NAV of the day on which the funds are available for utilisation shall be applicable.

Redemption/Switch-out:

- a) In respect of valid applications accepted at an Official

Point of Acceptance upto 3.00 p.m. the closing NAV of the day of receipt of application will be applicable; and

- b) In respect of valid applications accepted at an Official Point of Acceptance after 3.00 p.m. the closing NAV of the next Business Day will be applicable.

Where can the applications for purchase/redemption switches be submitted?

Balance Assets	1.00%

However, an additional Management Fee of up to 1% may be charged in case of a No-Load scheme.

The mutual fund would update the current expense ratios on the website within two business days mentioning the effective date of the change.

C. LOAD STRUCTURE

Load is an amount which is paid by the investor to subscribe to the units or to redeem the units from the scheme. This amount is used by the AMC to pay commissions to the distributor and to take care of other marketing and selling expenses. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC (www.morganstanley.com/indiamf) or may call at (1800 425 1313) or your distributor.

• During Ongoing Offer:

Type of Load	Load chargeable (as %age of NAV)
Entry	NIL
Exit *	Regular Plan: 0.25% if redeemed within 3 months months of allotment Institutional Plus Plan - Nil

Please also note that:

No entry and exit load shall be charged in case of:

- [a] issue and redemption of bonus units,
- [b] dividend reinvested,
- [c] investments by Fund-of-Funds Scheme(s),
- [d] SWP and STP transactions,
- [e] switches made inter-se between different options of Morgan Stanley Active Bond Fund.

All loads including Contingent Deferred Sales Charge (CDSC) for the Scheme shall be maintained in a separate account and may be utilised towards meeting the selling and distribution expenses. Any surplus in this account may

be credited to the scheme, whenever felt appropriate by the AMC.

Inter-scheme switch-in and switch-out shall attract the applicable Entry and Exit Loads like any Purchase and Redemption respectively.

The Trustees retain the right to change / impose an Entry / Exit Load / CDSC, subject to the provisions below.

- a) Any such changes / impositions would be chargeable only for prospective Purchases and Redemptions from such prospective Purchases (applying First in First Out basis).
- b) The AMC shall arrange to display a notice in all the ISCs before changing the prevalent Load structure. An addendum detailing the changes in Load structure will be attached to Scheme Information Documents and Application Forms. Unit Holders / Prospective investors will be informed of changed / prevailing Load structures through various means of communication such as public notice and / or display at ISCs / Distributors' offices, on account statements, acknowledgements, investor newsletters, etc.
- c) The Redemption Price will not be lower than 93% of the Applicable NAV and the Purchase Price will not be higher than 107% of the Applicable NAV, provided that the difference between the Redemption Price and the Purchase Price at any point in time shall not exceed the permitted limit as prescribed by SEBI from time to time, which is currently 7% calculated on the Purchase Price.

The investor is requested to check the prevailing load structure of the scheme before investing.

For any change in load structure AMC will issue an addendum and display it on the website/Investor Service Centres.

D. WAIVER OF LOAD FOR DIRECT APPLICATIONS

Pursuant to SEBI Circular No. SEBI/IMD/ CIR No.10/112153/07 dated December 31, 2007 regarding waiver of entry load for Direct applications (where applications are not routed through any distributor/ agent/ broker) investors are advised to take note of the following procedure for submission of 'Direct' applications:

- 1. Investors should ensure to write the word 'DIRECT' in the column 'Distributor's Name and ARN No.' or 'Broker Code' in their applications for purchases/ additional purchases/switches in cases where such applications are not routed through any distributor/ agent/broker.

Compliance with the above mentioned procedure would ensure allotment of units without levy of entry load, if any.

2. In cases where unit holder uses a pre-printed transaction slip/application form where details in the 'Distributor's Name and ARN No.' or 'Broker Code' is already printed, alterations, if any, in the column 'Distributor's Name and ARN No.' or 'Broker Code' should be counter signed by all the unit holders. If the alterations on the pre-printed transaction slip/application form are not countersigned by the unit holder(s), the application will be processed as if no alterations were made.
3. Transactions slips/application forms where the column under 'Distributor's Name and ARN No.' or 'Broker Code' is left blank, the same will be processed as 'Direct' applications.

V. Rights Of Unitholders

Please refer to SAI for details.

VI. Penalties, Pending Litigation Or Proceedings, Findings Of Inspections Or Investigations For Which Action May Have Been Taken Or Is In The Process Of Being Taken By Any Regulatory Authority

1. Penalties/fines imposed in case of foreign Sponsor:

Top ten penalties imposed on Morgan Stanley during the last three years are provided below:

1. In 2004, the NYSE brought an administrative action against MSDW and MS & Co. alleging that MSDW and MS & Co. (1) failed to deliver certain prospectuses; (2) failed to timely and accurately file daily program trade reports; (3) erroneously executed certain sell orders on a minus tick for securities in which MSDW held a short position; (4) failed to timely submit RE-3s in connection with certain matters; (5) hired certain individuals subject to statutory disqualification and failing to file fingerprint cards for certain non-registered employees; (6) failed to comply with requirements concerning certain market-on-close and limit-on-close orders; (7) failed to supervise certain incoming and/or outgoing communications; and (8) failed to reasonably supervise certain activities. On December 9, 2004, without admitting or denying guilt, MSDW and MS & Co. consented to a censure and fine of \$13 million and to offer rescission to those clients who should have received a prospectus during the period from June 2003 to September 2004.
2. On January 25, 2005, Morgan Stanley announced a

settlement with the SEC regarding allegations that it violated Rule 101 of Regulation M by attempting to induce certain customers that received shares in IPOs to place purchase orders for additional shares in the aftermarket. Under the terms of the agreement, MS agreed, without admitting or denying the allegations, to payment of a \$40 million civil penalty.

3. On May 12, 2006, MS & Co. reached a settlement with the SEC, the NYSE and NASD regarding allegations that MS & Co. failed to timely produce email in the research analyst and IPO investigations from December 2000 through at least July 2005. Without admitting or denying the allegations of the complaint, MS & Co. consented to payment of a \$15 million civil penalty.
4. On June 27, 2006, the SEC alleged that MS & Co. and MSDW failed to maintain and enforce written policies and procedures reasonably designed to prevent the misuse of material nonpublic information by them or persons associated with them. MS & Co. and MSDW consented, without admitting or denying the findings, to a payment of a civil penalty of \$10 million.
5. On December 11, 2006, the NASD alleged that Morgan Stanley failed to establish, maintain and enforce a supervisory system and procedures reasonably designed to identify opportunities for investors to purchase mutual funds at NAV, and ensure that investors received the benefit of available NAV transfer programs. Without admitting or denying the allegations, MSDW agreed to pay a \$100,000 fine and to pay restitution of approximately \$12 million.
6. On May 9, 2007, the SEC alleged that MS & Co. had fraudulently failed to provide best execution for certain retail orders for over-the-counter securities. Without admitting or denying the Commission's allegations, the Firm consented to pay disgorgement of \$5,949,222 and a civil money penalty of \$1.5 million.
7. On September 27, 2007 FINRA announced that Morgan Stanley agreed, without admitting or denying, to findings that Morgan Stanley provided inaccurate information to arbitration claimants and regulators regarding the existence of pre-September 11, 2001 emails; failed to provide such emails in response to discovery requests and regulatory inquiries; failed adequately to preserve books and records by overwriting back-up tapes that contained pre-September 11, 2001 emails and by allowing users to delete pre-September 11, 2001 emails that had been restored to active email servers after September 11, 2001; and failed to establish and maintain systems and written procedures reasonably designed to preserve required records and to ensure that it conducted adequate searches in response to regulatory inquiries

and discovery requests. FINRA also found that Morgan Stanley failed to provide arbitration claimants with updates to a supervisory manual when called for in discovery from late 1999 through the end of 2005. On the basis of these findings, FINRA found that Morgan Stanley violated NASD Conduct Rules 2110, 3010(a), 3010(b) and 3110; Procedural Rule 8210; the Code of Arbitration Procedure; Section 17(a) of the Securities Exchange Act of 1934 (regarding record-keeping) and Rule 17a-4 thereunder. Morgan Stanley paid \$12.5 million (\$3 million of which was paid as a fine and \$9.5 million of which was used to establish a fund for the benefit of potentially affected arbitration claimants). In addition, Morgan Stanley was censured and agreed to retain an independent consultant to review its procedures for complying with discovery requirements in arbitration proceedings relating to its retail brokerage operations. Morgan Stanley also agreed to retain an Administrator to administer the \$9.5 million fund as described in the relevant Plan of Distribution.

8. On October 10, 2007, Morgan Stanley & Co. Incorporated, on behalf of itself and as successor to Morgan Stanley DW Inc. (collectively referred to as "Morgan Stanley"), consented, without admitting or denying, to the entry of an order by the SEC alleging that Morgan Stanley failed to provide to its customers accurate and complete written trade confirmations for certain fixed income securities in violation of Rule 10b-10 under the Exchange Act, Section 15B(c)(1) of the Exchange Act and Rule G-15 of the Municipal Securities Rulemaking Board (MSRB). Morgan Stanley paid a \$7.5 million penalty, and agreed to retain an independent consultant to review the Firm's policies and procedures.
 9. On December 18, 2007, Morgan Stanley & Co. Incorporated, on behalf of itself and as successor to Morgan Stanley DW Inc. (collectively referred to as "Morgan Stanley"), consented, without admitting or denying, to the entry of an order by the SEC alleging that Morgan Stanley failed to supervise four former financial advisors with respect to market timing and late trading of mutual funds in 2002-2003. The Order censures Morgan Stanley, and orders it to cease and desist from committing or causing any violations and any future violations of Section 17(a)(1) of the Exchange Act and Rule 17a-3 thereunder, and Rule 22c-1(a) under the Investment Company Act. Morgan Stanley paid a disgorgement of \$4,400,000, prejudgment interest of \$720,000, and a civil money penalty in the amount of \$11,880,000, for a total of \$17 million.
 10. In May 2005, Morgan Stanley discovered that from at least January 1997 until May 2005, certain order entry systems at the Firm and the Firm's predecessor retail firm, Morgan Stanley DW, Inc., failed to check whether certain secondary market securities transactions complied with state registration requirements (Blue Sky laws). The Firm conducted an internal investigation, repaired the deficient systems, self-reported the problem to all affected states and the NYSE, identified transactions which were executed in violation of the Blue Sky laws, and offered rescission to such customers with terms and conditions consistent with the law of the state of residence of each investor. The Firm also cooperated with a multi-state investigation of this matter and has agreed to settle the state regulatory issues in a multi-state settlement with the 46 affected state and territorial jurisdictions. The Firm agreed to consent to an administrative order with each of the 46 state and territorial jurisdictions and to pay a total civil monetary penalty of \$8.5 million to be divided among the 46 state and territorial jurisdictions. The first order issued under the multi-state settlement was issued by Alabama on March 19, 2008. The issuance of nearly identical orders for the subsequent states is ongoing and expected to take several months to complete. In each order, there are identical findings of facts, conclusions of law, and an order which requires the Firm to cease and desist from violating each states' securities laws and to pay a fine comprised of each states' proportionate share of the \$8.5 million penalty.
2. Details of all enforcement actions taken by SEBI in the last three years and/ or pending with SEBI for the violation of SEBI Act, 1992 and Rules and Regulations framed there under including debarment and/ or suspension and/ or cancellation and/ or imposition of monetary penalty/adjudication/enquiry proceedings, if any, to which the Sponsor(s) and/ or the AMC and/ or the Board of Trustees /Trustee Company and/ or any of the directors and/ or key personnel (especially the fund managers) of the AMC and Trustee Company were/ are a party. The details of the violation shall also be disclosed. None.
 3. Any pending material civil or criminal litigation incidental to the business of the Mutual Fund to which the Sponsor(s) and/ or the AMC and/ or the Board of Trustees /Trustee Company and/ or any of the directors and/ or key personnel are a party should also be disclosed separately. None.
 4. Any deficiency in the systems and operations of the Sponsor(s) and/ or the AMC and/ or the Board of

Trustees/Trustee Company which SEBI has specifically advised to be disclosed in the SID, or which has been notified by any other regulatory agency, shall be disclosed. None.

Notes:

1. The Scheme under this Scheme Information Document was approved by the Board of Trustees on September 30, 2008.
2. The Board of Trustees have ensured that Morgan Stanley Active Bond Fund is a new product offered by Morgan Stanley Mutual Fund and is not a minor modification of the existing scheme of the Mutual Fund.
3. Notwithstanding anything contained in this Scheme Information Document, the provisions of the SEBI (Mutual Funds) Regulations, 1996 and the guidelines thereunder shall be applicable.
